**14.30-14.45 Coffee break**

**14:45-16:00 Financing nature-based solutions**

*Cities are bringing nature back into urban spaces as they have discovered that green can help with tackling current day urban challenges spanning from climate change impacts (e.g. higher temperatures, strong downpours) to societal needs (e.g. healthier, more active citizens). This panel discussion will explore how to use partnerships and innovative financing models to replace conventional, unsustainable urban planning solutions from the past with nature-based options that bring more (bio-)diverse green back into cities and allow the urban community to benefit from its positive impacts.*

**Panel discussion:**

Facilitator: Wolfgang Teubner, Regional Director, ICLEI European Secretariat

Duarte d'Araújo Mata, Climate & Green Infrastructure Adviser, Lisbon Municipality, Portugal

Susan Cline, Director of Public Works, Santa Monica, California, U.S.A.
